NEOFORCE LAUNCHES NEW DISINFECTANT/CLEANER FOR NEWBORN NURSERIES

Monday, August 14, 2006, IVYLAND, PA. Today NeoForce Group announced that they have received their first shipment of NeoKleen™ Medical/Surgical Equipment Disinfectant and Cleaner. Having already received EPA Registration and being approved for sale in over 36 of the 50 States NeoKleen™ will begin shipping immediately.

NeoKleen is particularly effective in newborn patient care areas where quick and effective disinfection is important to protect patients from cross contamination and to minimize equipment down time between patients. When used as directed it effectively cleans and disinfects, incubators, warmers, transport systems, bassinets and other hard, non-porous patient surfaces.

For more information including a list of microbes disinfected by NeoKleen as well as our material safety data sheet (MSDS), please visit our website at www.neoforcegroup.com or see you local NeoForce Representative.
