

Press Release

NEOFORCE TO USE HILL-ROM BIOMEDICAL SERVICES

IVYLAND, PA USA: THURSDAY, DECEMBER 27, 2007. In an effort to help hospitals maintain their Atom Medical neonatal warming beds, NeoForce Group Inc., announced that they will work with Hill-Rom Inc., to provide service for their expanding installed base of incubators, warmers and transport incubators. "We anticipate strong demand for our products and services in 2008 and want to make sure our ability to provide best in class technical service is firmly in place", stated Otho Boone, President of NeoForce. "Hill-Rom already has a significant presence in the hospital and is well respected for their after sales service support. Combined with our existing product rental partnership, this move will further strengthen our ability to provide a fresh new choice in infant care equipment to our customers", continued Boone.

"Hill-Rom Biomedical Services is very excited about joining the NeoForce family! We are truly looking forward to working with them in developing a world class service force. Hill-Rom has been in the medical service industry for more than 75 years and prides itself on providing a quality service that is second to none. Together, I feel we can truly make a major difference in the lives of patients and the people who care for them." stated Robert Branham, Field Service Manager of Hill-Rom Biomedical Services.

For more information on buying, renting or servicing your NeoForce/Atom Medical equipment, please contact your local NeoForce sales representative.
